KWS OF THE DAY IS BULLISH IN SENTIMENT

silroad and Metal Stocks Continue to Show a Steady Improvement.

CEW YORK, March 23.-Irregularity sed the movement of prices in the market today. Business was in derate volume and, as has been the set for some time past, almost wholly resional. There is still a dearth of able interest, not only in stocks, but in set as well. Sentiment was builtsh, the main, though developments were all of the sort to make for increased

the day's budget of news included fore-use of President Roosevelt's forthcom-special message to Congress, concernspecial message to Congress concern-which there was much diversity of which there was much diversity of ministent sugar Refining company, show-instead Sugar Refining company, show-instead Sugar Refining company, show-instead Sugar Refining company, show-ing the sugar sugar sugar sugar way centers, which bespoke a more certal view of general conditions, mite fears of a coal strike; a reported crease in the number of idle freight of and a good crop cettook. Dispatches was New England milkt was, telling of the wage reductions, served to call the and a good crop cettock. Dispatches to New England mill towns, telling of the New England mill towns, telling of the wage reductions, served to call seved attention to the labor situation. However, the service of a strike on the Reading system depressed the coalers during the art session, the rest of the railway maling in sympathy, but general reatries were later registered. Locally, ed by was devoid of important incites, spart from the definite announces; that two cret while important finance in the two cretwills important finance in the two cretwills important finance in the two cretwills in their difficulties. It can't movement of prices was more curble to the industrial group than it is railers. Excepting the excellent diment of the sugar company, which immed that stock smartly, there was not to account, for the strength of install shares, though the belief is gaing ground that conditions in steel and can the metal trade generally are ginning to take on a more hopeful out-

graining to take on a more hopeful outgraining to take on a more hopeful outind strength under the lead of the
luminan and Hill issues and the steel
of copper shares, the movements
swaching the entire active list and some
the specialities. Among the impelling
sure were the decision of the United
luis Supreme Court, which overturns
is Minnesots freight and passenger law,
saving the penalties imposed excessive,
which is the introducing of amendments to
be sheman anti-trust law. The closing
is strong at about the high level of
day. Foreign markets exercised litto no influence here, although Ameritar railled in Londou, where business
is restricted by reason of the approachis settlement. No important railway
imings were reported today, but those
some minor roads were in line with
settlement. The important incident,
the far rail and time loans being pracdiff wachanged, with little demand.
The payment to Washington of a final
stablent of about \$14,000,000 of Govtament moneys was accomplished withdisturbance. The greater part of this
was disbursed by local banks for
the little for correspondents. Money is
complained in trustworthy reports, is likely
